

Memorandum Of Understanding

For Autocad Training

This Memorandum of understanding (MOU) was made on 15th March 2020 between Educadd Learning Solutions Latur (hereafter called as the First Party) and VDF SCHOOL OF ENGINEERING & TECHNOLOGY LATUR (hereafter called the Second Party or "The College").

It was mutually agreed and declared that the training on Autocad 2d. software the detailed syllabus as mentioned in the Annexure-A will be provided by Educadd at the college premises.

Primary Objective of this MOU:-

To Improve the technical skill sets of Civil Engineering Students of the college, thereby boosting their employability scope.

To meet the above primary objective the college has assessed various training resources persons/ institutes and have chosen EDUCADD as their "Training Partner" to train the Civil Engineering Students in Staad Pro software

Procedure for Training – 4 Week for Autocad

Phase 1 (5 Days):-

→ Training shall be given on Autocad for the third year students per Week @ 5 Sessions every day comprising of 1:30 hrs per session; 40 minutes theory and 45 minutes in Lab, leaving 5 minutes to break/transit between Lab and Lecture/Seminar Hall. The theory sessions will be held by the undersigned resource from EDUCADD and the lab sessions will be taken care by other EDUCADD Staff members. → 2D plan and simple 3D simple plan will be dealt during the 4 days of lecture.

EDUCADD LEARNING SOLUTIONS PVT. LTD.

Phase-2 Practice for 6 days: The students are required to practice/ master the same for 4 days. Our Lab Staff shall be present for 4 days during the morning session from 9am-1pm during these two days

Phase-3 Project (10 day): EDUCADD shall provide 2 day training on 2D plan of Building comprising complex plan. i.e. Here a Project of G+5 will be taught to the students.

Phase-4: Evaluation and certification: EDUCADD shall conduct an exam for 2 hours for the students and shall evaluate the students. We shall then make the certifications printed for the students with appropriate grade with the **logo of the college incorporated in our certificates** and shall handover the same to the college to give away the same by conducting a valedictory function as per the procedures of the college. This would be done at an appropriate time, when the students are ready for taking the exam.

Phase-5: Doubts for the students: The students are welcomed to meet our staff at our EDUCADD - office anytime during 9am-7 pm to seek any clarification/ doubts on the subject matter for a period of 1 year from the day of awarding the certification. if the students are remote, they are required to email the same to centrehead_latur@educadd.net from the email id with which the students enrolls with us.

Phase-6: Placement Assistance: We shall provide the students resume to over 100 structural engineering firms all over India through our dedicated placement portal (under development/ enhancement) www.educadd.co.in/latur with which the student can get calls for a period of 2 years from the date of completion of his/her B.Tech.

Phase-7: Feedback to the college: The data of the students who gets recruited by any Civil/ Structural Engineering firm's shall be provided to the college placement officer / HOD concerned.

General Notes:-

- 1) The Computers & the software shall be provided by the College. Anyway, one systems engineer from EDUCADD shall be deployed to assist the college in making the systems ready for use.
- 2) The college shall provide proper theory / lecture hall with LCD projector/ DG/UPS backup for uninterrupted power supply. If required a separate pedestal fan has to be provided for the theory staff if the cooling is expected to less for larger gathering.
- 3) Proper Boarding facilities for the resource people should be provided by the college. The need of the same may be communicated with EDUCADD by email.

4) Courseware shall be given to the students in pdf format. Interested students may print the same. The need for any hardcopy doesn't arise logically as the entire manuals are available in the software help.

Commercials: No commercial terms involved in this agreement. Training offered for free of cost.

This agreement is valid for three years and may be extended on mutual interest

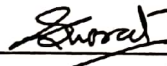

Special Note: If the training is satisfactory, then EDUCADD shall install Learning/ Practice Videos" basing on which the students are required to practice as per schedules explained in the above paragraphs of this MOU. But, for the college to avail these soft locked practice videos, the college should commit to sign an MOU for a period of 5 years. This decision may be taken by the college after completing fourth phase whether or not to avail this facility.

This MOU is executed on this the 10th day of March 2020 at Latur with free will and concern without any coercion or undue influence between both the parties to benefit the students in giving them cutting edge skills required for their successful careers after their graduating from the college.

Witness:
